To: Mary Lane VanCleve

From: Steve Ripple

Subject: Demographic Subcontractor

I called Mary Lane to determine the status of the subcontract approval for Cathy DaMassa. Mary Lane indicated that she had been attempting to contact local historians that might be interested. Her first contact indicated that he was not interested. She suggested that we could follow up with the following individuals that she has not contacted yet:

UT - History Department

Dr. Chuck Johnson 615-974-7088
Dr. Bruce Wheeler 615-974-7089

State Center for Business and Economic Research

David Haek 615-974-5441

Consultant

Don Belcher 615-646-6789

ChemRisk Document No. 1359

Telecon 12/22

To: TVA
From: C DaMassa
Re: Availability of quad sheets for study area
615-751-6277

TVA has aerial photography for quads "in the Valley." "Out of the Valley" not so good

Will send catalog of maps available thru TVA

Telecon 12/22/92

USGS Reston

703-648-6045

507 National Center

Reston VA 22092

Send ck for $12.00 w/ description of area in Tennessee. They will research & call w/ available maps. (Include ph #)

Probably not quad sheets all the way back.

Takes ~6 wks to obtain out-of-print maps.

Also inquire re: existence of aerial photos

Ref: Library of Congress 202-707-6277

Russell Harris, Mgr 632-1543
Terry Mc Donnough 632-1542

He will send his info to Larkspur. Will take
~ 1 week

Telephone Notes

Date: 1/14/93

To: Dr. Bill Wren
TVA Fisheries Dept
205-386-3656
Muscle Shoals, Alabama

From: CDa Massa

Inquired as to statistics on fisheries (commercial & recreational) for Clinch, Tennessee, Emory Rivers

He said

- No data has been continuously collected for last 50 years. Creel data is typically collected for certain portions of rivers for certain projects (like nuclear plants)
  He will have someone research for me & send info to Larkspur.

(He mentioned Melton Hill as a new dam, Tellico dam built in early 60's) May be river data collected before dam construction

- He also suggested going to TVA Chatanooga and searching database.

Telephone Notes

Date: 1/14/93

To: Greg Wathen
Wildlife Mgmt
State Wildlife Resources Agency
Nashville
615-781-6610

From: C Da Massa

Asked for hunting stats.

He will send all he has on Big game, small game, fur bearing & waterfowl for as far back as records were kept.

He will send game harvested, licenses sold, Best records are for 1970's on.

License sells may be available only statewide, or by region.

Historic information on areas open for hunting is not readily available, but might be obtained thru research.

He will send today or tomorrow to Clubhouse Inn.

Telephone Notes

Date: 1/14/93

To: Robert Todd
State Wildlife Resources Agency
Fisheries Mgmt
(Biologist, in charge of commercial fisheries)
Nashville
615-781-6575

From: C Da Massa

Out of office till Tue. He will call me then

Called back 1/19/93

He will send Draft Commercial Fisheries Report for 1991; includes creel data for last year, species harvested, amount, where disposed of. Has reports go back to 1929.
→ He will send historic data. Old data was done by TVA & NOA, consisting of estimates. All current #'s are estimates, too resulting from a voluntary survey of commercial fishermen.

He wanted to point out that health standards are based on fish that is exported out of area to consumers who eat fish from many sources. However, about 10% of harvest goes to local consumers who eat nothing but local fish. Standards are not correct for them.
He said most fish exported out of area goes to

Telephone Notes

From: Cha Mussa

Inquired re: data sources for LU & demographics

- Oak Ridge schools keeps track of children by age
  Call school board
- Oak Ridge does not make official annual population estimates. They do try to keep track of migration by following utility hookups, disconnects not an accurate source of data through
- 1948 Master Plan of Oak Ridge done by Skidmore, Owens, Merrill for AEC (at OR Public Library) done at end of population boom.
- Pop of OR has stayed fairly steady for last 40 yrs ~28 – 35K.
- 1990 census info is now available on CD ROM. Better
  → Betty Vickers 974-5441 at UT Center for Econ Business Research has a CD Rom reader
- OR Public Libr is an official census repository

Telephone Notes

Date: 1/15/93

To: L. Faust

From: C DaMassa

- East Tennessee Development District keeps track of economic data for 16-county area including Oak Ridge
  → 584-8553 Trudy Garrett. (statistics)

  → Municipal Technical Advisory Committee (MTAC) also tracks economic trends
  974-0411

- There are commercial sources of census/econ data that can give you detailed info on families just by phone # / or zip code.
  NPDC Compass (?)
  PRIZM Profiles - lifestyle segmentation system
  → Linda Webb

- Land Use map of OR (not titled as such)
  1968. 7½ feet × 2½ feet
  OR Room of OR Pub Library has one

- LU maps of reservation available from DOE. He has 1988 LU map with ~15-20 classifications for zoning purposes

Telephone Notes

(3)

Date: 1/15/93

To: L. Faust

From: C. DeMassa

- Oak Ridger Newspaper ~~has~~ has listed #'s of commuters into OR for many yrs. (commuter info also on census)
  There are many commuters and always have been.
- ~~If~~ There are no local "Councils of govt's)

- Clinton is Co seat of Anderson Co
- Kingston " of Roane Co.

County tax data = land ownership for rural areas

- ORNL has had GIS database for many yrs. have used it to generate hpts for many projects
- Complex 21 is current proposal to move all govt nuclear activities to 1 geographic area — reports are ongoing now. He doesn't know who is working on it — under contract to DOE. OR Chamber of Commerce may know.

Telephone Notes

Date: 1/15/93

To: L. Faust

From: C Dauffenbach

- Drinking H_2O only 6 houses in OR have wells. OR H_2O all out of Clinch River. Treatment plant on Pine Ridge
  also Anderson Co. H_2O Dist pulls H_2O out of Clinch River & sells to smaller utility districts
  People in county do have wells. Perhaps
  → County health depts have info on
- No City health dept. in OR

Telephone Notes

Date: 1/20/93

To: Midge Jessman
Anderson County Planner
594-6660

From: CDaMassa

She will send a land use map for Anderson County - it is ~7 yrs old. It is the only one thats ever been done. They are working on an updated map now that should be available later this summer. ~~There~~ map is on "a basemap" other county LU maps may be tax maps.

✓ She recommended Trudy Garnett at East Tennessee Development District for annual estimates of population 584-8553.

And Tax Assessors Office for old tax maps for Anderson Co for land use back to 1940. They are fairly accurate - very accurate for last 20 yrs.

Telephone Notes

Date: 1/20/93

To: Jay Vincent
Roane County Planner
594-6666

From Chad Mason

Map from 1960's is earliest LL map for Roane County. He will send that & current LL map.

He recommended State Property Assessor in ~~State~~ Treasury Dept
Director - Wm. Carman
615-741-2501
for tax assessor archives. Some counties keep there own assessor records, others are kept by state.

(Not received 3/1/93)

Telephone Notes

Date: 1/20/93

To: Trudy Garnett, Statistics (?)
East Tennessee Development Dist
584-8553

From Chad Russa

No annual population statistics exist for county & communities. Estimates are projected, but when the census comes out, they're always way off. She wld divide growth evenly year by year (same growth rate each year) if she was going to do it.

You can look at block data from census & estimate pop of small communities, but its difficult to do because communities have no official boundaries & people argue whether they're in or out. Nobody at county/state level does it for that reason.

Telephone Notes

Date: 1/20/93

To: Pat Phillips
Loudoun County Planner
~~[illegible]~~ 594-6666

From: Cha Dawson

He will send land use plan for 1975, and more recent plans for ~~[illegible]~~ Leesburg City and Loudoun City. That's all that exists.

He thinks review of old tax records will take to long — he recommends USGS Quad sheets

(Received)

for info on industries.
historic

Then go to H_2O suppliers & ask if they have ever supplied H_2O to industries.

- Few people on relatively public supply before 1975, many wells (her guess for areas) rural

- Call Don Rima Tennessee Dept Env. Cons. Division H_2O supply & GH_2O protection. He maintains GH_2O & well files (use Hutson's name) He will have list of wells - his file doesn't indicate if they're active or not.

Telephone Notes

Date: 1/27/93

To: Hutson
Da Massa

- OK to call her back w/ further questions on how to research all this, re for write-up in report

- Anderson Co will be most difficult to research (most activity) Knox Co too.

- Statewide trend has been for use of public H_2O supply going up, wells, industrial withdrawal going down

Telephone Notes

Date: 1/26/93

To: John Riddle
State Wildlife Resources Agency
(Recreation Fishing?)
Nashville
615-781-6575

From CDR Nassa

- Creel data is by reservoirs only - none for rivers. It is available in many forms, as in Annual Reports that are in-house. Public can see them but they're not prepared for public distribution

- There is also summary creel data for 1977 to 1991. He will send that to me for Melton Hill Res. & Watts Bar Res. ~~&~~ Data is not complete for every site (ie 3-4 yrs for Melton Hill) (will send to Larkspur) ✓ (Rec'd 2/93)

~~Any others~~ No creel data for anyplace prior to 1973. Data is sketchy to 1977. It is in individual reports. One would need to go to the office to conduct research,

Telephone Notes

Date: 1/28/93

To: J Reddle

From: C DeMasse

~~It~~ It wouldn't be creel data, but "precursors" to creel data.

- One might be able to establish what species were present in certain areas by looking at old TVA rotenone studies.
- Numbers are no good due to collection methods but some general info on fish communities.

for 40's, 50's, 60's

- I asked about obtaining info through personal interviews. He said not a good method due to "fish stories". Data from old timers tends to not be reliable.

- Get info on #'s of fishing licenses from Helen Chesser - Licensing 781-6590

Telephone Notes

Date: 1/28/93

Re: location of water wells

- Information on water wells can be provided out by quadrangle (~$185.00 for 17 quads) May be free to subcontractors of state agency. Records include: Name of owner, date of drilling, date reported, location (may be with 2½ minute quad or 1/9th quad sheet w/ name of access road, or may be specific lat/long of Division H_2O supply that visited it). Data goes back to 1963. ~~Also Sources other than~~ is drillers reports. Accuracy not 100% due to source of info., coding errors, etc. Sources other than drillers rpts include USGS, ground survey (digit at 4th place of 8 columns = 9, or 9000 #'s)
- For data back to 40's, see USGS, Tennessee Div. of Geology Bulletin #58, Part 1, Ground H_2O.

Call Knoxville USGS office 532-1516
Map Sales →

Telephone Notes

Date: 2/2/93

To: Rena

From DeMarco

ask for Carolyn McCurty.

- Hs records (quad sheet printout) don't indicate active/inactive. Must look at date/use. If it was residential & house is gone, then inactive.

They do get notification of well closings, it's voluntary though

- Also see Geologic Map of ORR by Wm. McMaster

- Well reports also available by county but contain less info than quad reports @ $1.00 each

- I asked about Figure 3.10 of Env. Analyses Operation of ORNL (X-10 site) 1982 showing locations of wells in 5 County area — He said send him the map & he'll try to figure out source.

- Generally wells drilled before 1952 are no longer active — have switched to public H_2O supply

Telephone Notes

To: P. Kelly Amonatt
Ag Extension Agent
Morgan County
615-346-3000

~~F~~

E: Dr Thomas

- He has been extension agent for 17 yrs. Retired agent is in Florida until March 1

- There is a dairy farm 4-5 miles north of Coalfield close to Stephens on (Cassell Rd ?) It is owned by Ray Melhorn, ~~milks~~ ~ 65 cows, probably there since early 50's. Ray inherited it from his father.

- Another closeby owned by Phil Melhorn ~ 60 cows, started ~ 1956-58. Changed to beef during buyout program in ~ 1985-86.

- Another owned by Billie Marlowe on Union, across from Union Church (Union is just outside study area) and 3 others beyond, towards Wartburg on Hwy 62 (Did not get details of size etc)

Telephone Notes

Date: 2/9/93

To: Amonatt
F DeShazo

- One on Fairview Rd just (west of?) Coalfield (now owned/farmed? by Amonatt), it was a dairy farm in 1958, changed to beef cattle in 1974-75, now is beef cattle and sheep. It was ~35 cows milked. Owner was William Ranken, Amonatt sees him every day or so & will ask when dairy was established

1. There are 2 others 4-5 miles west of Coalfield on road to Harriman, Amonatt did not know how big or type of operation (Called back 2/23 - farm near Coalfield owned by Cecil Kite - it's been there since 50's, 30-35 cows milked)
- and one between Ranken farm and Coalfield, again, doesn't know particulars

*1. (showing location) Amonatt said he developed a county map of all orchards, crops, livestock, etc. and sent it to someone at DOE about 1 year ago

Telephone Notes

Date: 2/9/93

To: Amanatt
F: Dr Masson

- Beef cattle are raised throughout county, including within study area, and have been for many yrs "Have always been slaughtered in midwest."

- Milk from dairies was probably bottled at a dairy below Hartburg, or at the Norris Creamery (in ~~Hartburg~~ Storrs ?)

- Some corn is grown in study area - mostly grown closer to Hartburg, Western Co. is where most corn and tobacco is grown

---

* I called Amanatt back on 2/23 to see if he knew who in DOE was given the map showing ag production for County. He will see if he can find name & call back
(did not call back 3/1)

Telephone Notes

Date: 2/9/93

To: Joe Hall
Anderson Co Ag Extension Agent
457-5400 x246

F Dr Maeser

- No dairy farms in study area - none for 19 yrs when he came to work. All are in Andersonville/Norris area (outside study area)
- One dairy near Clinton ~ 1 mi NNE of fish hatchery on river ~ 20 cows, & has been there for 5 yrs (outside study area)
- None historically in study area that he or other agent knows about
- Norris Creamery located in Norris from early 40's until 1970's
- Beef cattle are scattered throughout County, including in the study area. He mentioned one herd by Bull Run ~ 40 head
- Not much crops to speak of - mainly hay

Telephone Notes

Re: Comments on 2/9/93 Report Outline

In general - he does not need detailed info, but only yes or no - was an activity in a certain place at a particular time -

Did it exist, re
- wheat
- Corn
- dairy
- beef

If so, when where?

Was it 1940 to 1970, or only for a few yrs

- Location of population centers, not individual residences, and timeframe, has it been there since 1940's, or is it relatively new?

- Is not familiar enough w/pop centers to define area of concern. Meeting with him on 2/22 in Alameda to clarify.

Telephone Notes

Date: 2/17/93

To: DaMassa

F: Finney

- Not interested in 20 houses and a church/gas station. More interested in larger pop centers, but how large - can't say

- Would like land use down to 2 mi^2. I said not possible in study area of ~ 400-500 mi^2. Agencies cannot provide info at that level of detail

- Location of H_2O withdrawal not necessary, but only questions such as: was river/ground H_2O used for drinking, irrigation. If so, where, when.

- Same w/hunting - an unusual exposure pathway where/when was game killed/consumed

- Also extent of commercial fishing - he has no idea where/when ~~that was~~

- In "generic" exposure analysis - sediment used in agriculture can be a concern - at OR? He also discussed use of contaminated ~~sewer~~ sediment in beltway sewerage

Telephone Notes

Date: 2/23/93

To: Greg Mathews
TWRA
Wildlife Mgmnt
Nashville
615-781-6610

- Question of closed seasons by county. It is safe to assume that if no statistics exist for a yr/county, then the county was closed to hunting & none or few deer were taken

- Small game. Only way to get small game statistics is to look at yearly reports which he has going back to 1953. Essentially small game have been hunted throughout time period 1942-1992 throughout study area. Some yrs closed for raccoons due to depletion in population

- Oak Ridge is major WMA in 5 County area - Also he will send map of WMA's in 5 County area, along w/ table showing when each established, & report on mgmt policies re: hunting
- Essentially all WMA's are open to hunting when species can sustain it.
Refuges, most are for H_2O fowl mgmt. limited hunting -
~~Closed to~~

Telephone Notes

(2)

Date: 2/23/93

To: Nathen

F Dan Nassar

Closed in winter

. Game are hunted throughout all 5 counties, ~~If County is open to hunting~~ not just on WMA's. Property owners decide if their land is open

For instance, last yrs deer harvest in state of 127K deer killed 110K were not on WMA's

Telephone Notes

Date: 2/23/93

To: Jim Evans
TWRA
Oak Ridge
615-675-6836
(Radio Dispatcher can page him - call 615-587-7037)

- ORR has been open for deer hunting since 1985. TWRA ~~has~~ runs check station on Bethel Valley Rd. They check for biological data for their records (sex, age, weight) and for contamination ~~of~~ Testing takes ~10 minutes/deer. They check for radionuclides - alpha, beta, gamma - also strontium 90. Do for strontium 90 has been the only reason to confiscate deer, they withhold ~10/yr. Norm Teasley at M Marietta would have more info 4-7713

- of the ~35,000 acres at ORR, ~25,000 are open to during deer season. & Most areas open except for plants, plus a safety area.

Y-12	~5 to 6K acres
X-10	~2K acres
K-25	~2K acres

excluded from hunting

Telephone Notes

Date: 2/23/93

To: Evans

F: DeMasse

- Very little hunting done on ORR in 50's & 60's or no maybe some small game quail squirrel

- He guesses on ORR Gamble Valley was probably hunted for small game in parts (rabbit, squirrel, quail) in area before country club estates was built (West of Illinois Ave, South of OR turnpike) raccoon, H_2O fowl

- Best way to get species is to ask old-timers
  - Some have said that they fished the quarries and streams on ORR by sneaking on

- Deer have never been stocked in Oak Ridge — they have in northern Anderson County & Southern Roane

- People fish now by K-25 on Blair Rd even though area is posted by TWRA - "fishing prohibited" It is an advisory, no law behind it

~~Also~~ on

Telephone Notes

Date: 2/23/93

To: Evans

F: Dan Nosse

- Off reservation on Coal Company Road - Dutch Valley
- Also lots of waterfowl hunting in area
  Melton Hill Lake & before that Clinch River
  Ducks, Canada Geese
  There are fewer ducks now nationwide than in past -
  but more Canada Geese (relatively new)
- Bob Nichols TWRA would have info on Canada Geese
- Evans would be interested, & knows others interested in doing field work related to future research

F: Chris Massa

Re: Dredging of E. Poplar Creek (upstream of culverts)

The last time EFPC was dredged was in 1974-75, near Turnpike bridge (s?) Silt builds up there. He doesn't know if permits were required, or if permits were required for dredging prior to 1974-75. They have been trying to get permission since 1988 to dredge again, and hope to award contract for work next month. Permission comes from State Dept Environment & Conservation, Water Quality. It has taken a long time due to concern on contaminated sediments. Also permission required from DOE, they are doing studies on creek and dredging will have disturbed.

Telephone Notes

(2)

Date: 3/15/93

To: J Calvert
F: C DeMarsa

- In 74-75, sediment was piled next to creek, then used by contractor as topsoil in reclaiming when sewer line was installed. Contamination came from mercury spills in late 40's early 50's at Y-12. Contamination followed creek thru west side of town
- Remediation = DOE removed top 12-18" soil and replaced where contaminated.

- Calvert has no idea of volume of dredge material involved. Contractor knew where he had taken fill, DOE sampled all lines - marked areas where contaminant found and replaced.

- Dan Keaveney (DOE procurement officer) may have info or referral for info 574-3986
- Richard Eldridge filled out RCRA application sheet ⇒ (482-8424)
- Also Gary Denden (?) knows about current results

Fr: C. DaMassa

"Fish harvested" in reports he sent refer to fish caught and kept.

~~Fish~~ Estimates of fish caught and released are tabulated separately

TWRA
Oak Ridge WMA
615-675-6836

Fr: CDeMasco

- Statistics for WMA are separate from County statistics

i.e	1985	ORWMA	927 deer harvested
		Anderson Co	42 " "
		Roane Co	80 " "

Only other WMA w/in Roane Co is Kingston Count is probably low there 15-20/yr

None other in Anderson Co.

- Since our last conversation he has chatted w/old timers who say small game hunting & fishing ~~have~~ have occurred on Reservation for entire time period - more than people realize.

TWRA archives may have daily logs/records of ~~indicating~~ indicating #'s, if they have not been thrown out.

Re: Historical Development to west of City of OR

- Before 50's, trailer parks / Wheat Community ~~was~~ to west
- 1st subdivision to west was Section 1 of Oak Hills (up against boundary of ORR) in late 50's or early 60's (this office can provide exact dates if desired) (by court order - city was against development to avoid leap frogging)
- Residential development filled in to Oak Hills in 15-18 yrs & now extends ~ 1 mile beyond
- There was a private development ~ 1 1/2 mi² filled in from Louisiana north of Robertsville Rd (West Ridge Corp)
- Also West Village strip along OR turnpike ~~East~~ Tuttle in late 50's
- So. of OR Turnpike Hiltchins Estates (late 50's early 60's) lg lot subdivision Louisiana to Bradley Ave) on East Fork Ridge
- OR Country Club Estates also backs up to reservation began in early 70's, not finished. EFP Creek goes thru CC property

(over)

- Garden Apts Develop in early 50's private enterprise — then they were big luxury apts
- So. Wood Development

Lots of people have reservation boundary as prop line

- Thyrowell Dr ~~for~~ dev - furthest west
  Westwood is name of area furthest west
